Chairman Fred Upton  
Energy and Commerce Committee  
United States House of Representatives  
Rayburn House Office Building Room 2125  
Washington, D.C. 20515

Dear Chairman Upton:

On behalf of more than seven million senior citizen activists, the 60 Plus Association strongly supports H.R. 6 'The Domestic Prosperity and Global Freedom Act'.

America's seniors and soon-to-be seniors have for years witnessed an increased reliance upon foreign energy sources that threaten our national security in an economy that continues to struggle with recovery. We have been told that our nation was running out of liquefied natural gas (LNG). Yet, with technological innovation, America's output for LNG continues to rise.

Current permit processes have not kept up with these innovations, however, and do not serve our nation's best interests. The Department of Energy's slow applications processing for liquefied natural gas exports can now unnecessarily take decades for approval. This bill changes all that.

Thanks to your outstanding leadership, enactment of this legislation would create high-paying American jobs with domestic energy producers and manufacturers, positively impact the nation's export markets in liquefied natural gas, strengthen our relationship with our trading partners who may otherwise seek supplies from other exporters like Iran and Russia, and help provide affordable energy resources for the world's developing countries.

60 Plus agrees that now is the time to fix these regulatory shortcomings.

Sincerely,

James L. Martin  
Chairman
